### Veteran's Day Ceremony Set For 11 A. M. Thursday

Veteran's Day, 1965, will be observed in Greencastle at 11 a. m. Thursday, 47 years after the signing of the World War I Armistice in 1918.

A combined color guard and firing squad, composed of members of American Legion Post 58 and Gen. Jesse M. Lee Post 1550 Veterans of Foreign Wars, will participate.

The group will march to the court house lawn where a brief but appropriate service will be held at the Doughboy and Buzz Bomb monuments, commemorating World War I and World War II.

The invocation will be given by Francis P. O'Brien, American Legion District Vice Commander.

This will be followed by a three volley salute by the firing squad and the sounding of Taps.

Thursday evening, Post 58 members will hold their annual turkey dinner at the Legion Home. All members are urged to attend.

As result of the conflict now being waged in Viet Nam, all veterans urge that citizens display their American flags Thursday thus showing their loyalty to "the boys over there."

### 70 Yanks Killed In Viet, 237 Wounded

SAIGON, Viet Nam UPI—A U.S. spokesman announced today that a record 70 Americans were killed fighting Communists in Viet Nam last week—a figure just 17 below the previous toll for an entire month.

There also were 237 wounded and two missing in action for the week ended Nov. 6, the spokesman said.

Most of the casualties apparently were suffered when two companies of the Army's 1st Air Cavalry Division were ambushed several miles west of Plei Me by regular North Vietnamese troops.

Meanwhile, a battered U.S. paratrooper battalion returned to its base Tuesday night after virtually annihilating a well equipped, hard-core Viet Cong battalion in the biggest battle to date in War Zone D, 35 miles northeast of here.

The Communists left nearly 400 dead on the field after five and a half hours of vicious fighting. American casualties were described as "moderate."

U. S. Army helicopters ferried wounded Americans from the 173rd Airborne Brigade back to their base at Bien Hoa from a helipad hewn out of the thick jungle by axes and dynamite. Zone D is a notorious Communist sanctuary honeycombed with Viet Cong tunnels, bunkers and spider traps, but the paratroopers' landing in the area Friday was unopposed. They continued to sweep the area without opposition until Sunday when the Reds caught them in a deadly ambush.

### 20 Years Ago

Lt. Col. John A. Egan was named base surgeon at the Army Air Force Regional Hospital at Scott Field, Illinois.

Kenneth Eitel was elected treasurer of the Rotary Club, succeeding Edward Smythe.

Carroll B. Hammond received his honorable discharge from the U. S. Navy.

Mr. and Mrs. Rexell A. Boyd were the parents of a son.

#### Trial Continued Until Friday

The jury trial of John R. Peterson, 25, Delphi, was continued Tuesday in the Putnam Circuit Court until Friday at 9:30 a. m. at the request of the defense.

Peterson is charged with escaping from the Indiana State Farm last September 16. The defense asked for time so that a Lafayette psychiatrist could testify in behalf of the defendant. Judge Francis N. Hamilton granted the continuance after it was learned that the psychiatrist could not be in Greencastle until Friday.

In other circuit court action Tuesday, William Collins, 20, Greenfield, entered a plea of guilty when arraigned on a charge of escaping from State Farm.

Judge Hamilton sentenced him to serve 1-5 years in the Indiana Reformatory at Pendleton.

### Lions Sponsor Carnegie Course

Bob Hanes and Billy Wiley, representatives of the Dale Carnegie Institute, spoke to the Greencastle Lions club at their regular Monday night meeting. Hanes and Wiley explained the Dale Carnegie course to the Lions who are sponsoring the course here in Greencastle.

A preview meeting, which is open to the public, will be held on November 30th. The course is designed to help men and women develop self-confidence, speaking, motivating and human relations abilities. It also helps improve memory retention of names, facts and figures and teaches how to control worries and tensions.

The Dale Carnegie course has been helping people get ahead in their jobs and communities since 1912. This course will be the second sponsored by the Greencastle Lions; the first successful Carnegie training venture was taught in Greencastle about four years ago.

Lion Bob Hamontre announced that Charter Night for Lions and Ladies would be held Monday, November 22nd at Holidarsburg. The smorgasbord will start at 7:00 p.m. with Lions Ivor McMains, Charles McCullough, and Bob Hamontre in charge of the program.

The annual state Lions bowling tournament will be held at Anderson the 2nd and 3rd weeks in January. Lion Norm Pelfrey is in charge.

Two new members present were Lions Leon Snyder and Wayne Lewis.

### Actress Ill

HOLLYWOOD UPI — Actress Jill St. John remained in Cedars of Lebanon Hospital today for "tests and observation," a spokesman reported.

The 26-year-old beauty was admitted Tuesday, but there was no further comment on her condition.

### Eisenhower Reported In Excellent Spirits

AUGUSTA, Ga. UPI—Former President Dwight D. Eisenhower rested in "excellent spirits" at an Army hospital today while a team of specialists studied tests to determine whether he had suffered a mild heart attack.

Dr. Thomas B. Mattingly, medical spokesman for the 75-year-old statesman, scheduled a briefing with newsmen for 11 a.m. EST.

A statement issued at 2 a.m. today said that Eisenhower slept under an oxygen tent and that a doctor "continually watches the general's heart rate and rhythm on the oscilloscope of a special monitoring machine located in the living room of his five-room suite."

More tests were scheduled today. Mattingly, a cardiologist who was rushed here from Washington when Eisenhower was admitted to Ft. Gordon Army Hospital with chest pains early Tuesday morning, said in his

first medical briefing Tuesday that the two-time President and World War II supreme Allied commander was in "very satisfactory" condition.

The specialist from Walter Reed Army Medical Center said at the time that if Eisenhower had suffered a heart attack "it was a very mild one." He said an observation period of 24 to 36 hours would be necessary "to be sure of a diagnosis."

Mattingly, who treated Eisenhower when he suffered a severe heart attack during his first term as President in 1955, said that, with Eisenhower's heart history, "a recurring episode of chest discomfort must be carefully evaluated until it is adequately explained."

Eisenhower, vacationing at the Augusta national golf course, complained of chest pains around 12:30 a.m. Monday and, still clad in his pajamas, was rushed to the hospital.

### Power Failure Hits New York, Northeast

NEW YORK UPI — The nation's vulnerability to a single mishap was laid bare today by history's biggest electric power failure, which brought 12 hours of chaos to millions of persons in New York City, the Northeast and Canada.

Power was virtually restored throughout 80,000 square miles which were plunged into darkness and difficulty when the lights went out from Ontario to southern Pennsylvania at 5:28 p.m. EST Tuesday. Thirty million persons were affected.

The crisis ended painfully, slowly, and piecemeal to eight Northeastern states — New Hampshire, Rhode Island, Connecticut, Massachusetts, New York, New Jersey and Pennsylvania — and a portion of Canada, then finally New York City. By then only scattered areas remained without power.

At 5:28 a.m. EST today, power was restored to the United Press International bureau in midtown Manhattan, and only scattered pockets of the city were still darkened. This was 12 hours to the minute from when the lights first went out — and plunged the city into a night of trouble.

The cause of the massive power failure was an incredible puzzle, one that could take days, perhaps weeks to solve. It produced fright in darkened cities — and anger in Washington.

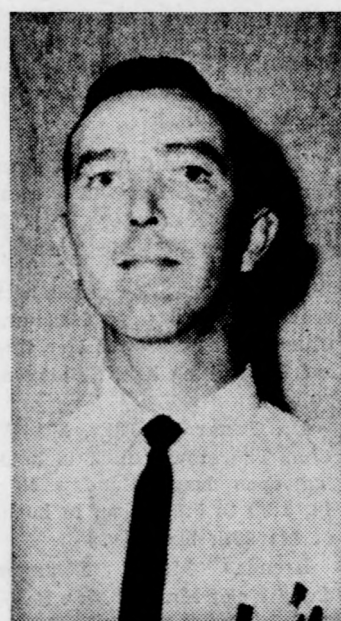

"I had no idea anything like this could happen," said Rep. Walter Rogers, D-Tex., chairman of the power subcommittee of the House Commerce Committee. "Well, somebody was mistaken, because it has happened."

He promised a "hard look" by Congress "as soon as it returns if not sooner."

Mr. Conrad took over the operation of the store this week after purchasing it from the Lanzone family.

He is no stranger to this kind of business having been associated for years with his father, Lester Conrad, of the Campus Market.

Mr. Conrad stated that he will continue the policy of Charles Lanzone in offering quality foods at competitive prices and the same friendly and courteous service to old as well as new customers.

Richard L. Conrad is the new owner of the popular Stop 'N Shop grocery and meat market on the south side of the public square.

LUBBOCK, Tex. UPI — The boys of dormitory No. 9 at Texas Tech mailed out 5,000 Christmas cards to co-eds on the campus last year. This year the cards will go to U. S. fighting men in Viet Nam.

### Chamber Of Commerce Backs Jaycee Project

The Greencastle Chamber of Commerce at their monthly board meeting passed a resolution supporting the Greencastle Jaycee's current Freedoms Foundation Project.

The Jaycees are helping to raise \$1,000,000 for construction of the George Washington Building for Freedoms Foundation at Valley Forge. The Foundation has as its sole purpose the encouragement of understanding of the principles of the American Way of Life. This work is carried on mainly through the annual Freedoms Award Contest and the facilities of the Martha Washington Building. At this facility, students, teachers and many interested citizens may study and do research work on or about America. The proposed George Washington Building would greatly enhance the facilities. This would help to ensure that the work continues and grows.

Lou Ehrke, chairman of the Foundations committee, at the board meeting and talk about the Foundation, said, "so many of us take our freedoms for granted and consequently due to our lack of attention, many freedoms are slipping from us." "The Foundation is an effective attempt to help us to understand better our liberties and help us to learn how to maintain them. We should on the work toward better and fuller understanding of our American principles."

Chamber president William Clary then asked for a resolution supporting the Jaycee's project. The board gave its approval and support to the Jaycee's efforts.

### Police Report Traffic Mishaps

City police reported this morning that two parked autos and other cars involved were damaged in separate traffic mishaps Tuesday.

A parked 1960 Chevrolet owned by Otis Gorham was damaged an estimated \$75 while a 1958 Buick driven by Mary Strain was damaged at \$250, according to Officer John Purcell.

In a similar accident, a 1958 Pontiac driven by Edith D. Vaughn was damaged \$5 and a 1961 Comet owned by Helen L. Osborn was damaged \$20, schools and special dates of Officer John Stevens reported.

The South Putnam Community School Board held its regular meeting with many important items of business being discussed. Claims were approved and other general business was transacted.

The Board was informed that the State Tax Board had reviewed the 1966 Budget and that the tax rate had been lowered seven cents for next year.

The Board then signed an additional appropriations which will be used to pay increased expenses and fees incurred from the legal action last summer.

The Board established Mr. Hedrick as their legal representative for the Federal Education Programs that will be established with money received from the Federal Government. Federal Law 89-10 set aside \$28,000,000 in Title I for the South Putnam Community School Corporation which will be used for industrial arts equipment, education, materials, speech and hearing equipment, guidance and a remedial reading program throughout the system. All programs will be started by the next school year.

The Board discussed the proposed location of the new high school. The recommendations of the State Board of Health and the State School House Planning Commission will be a very important factor in establishing the site for the new High School. The representative from School House Planning recommended the Vaughn site, west of Mt. Meridian as the number one site. Mr. Boone stated that it was well located and that from all evidence, an adequate water supply would be available. The Westrick site west of State Road No. 43 located on the south side of Road No. 40 would be his second recommendation. He stated that from evidence available concerning this area, the water supply is a major problem to business and residence alike. All seven sites recommended by the Board were in a radius of three and one half miles of each other so the transportation problem was considered to be at a minimum. The School Board decided to wait until the architect is hired before a final decision on the site is made.

The State Board of Health and School House Planning Commission will not give final approval on any building site until a well is drilled and it is proven that water is available for the new school.

The School Board will interview one more architectural firm before the final interviewing program will begin. Six firms have been interviewed thus far.

A special invitation was given Vaughn to the School Board to attend a 1961 Comet owned by Helen L. Osborn was damaged \$20, schools and special dates of Officer John Stevens reported.

## Editorial-Wise The American Fighting Man

(By Eric Severeid, CBS News Commentator)

This is the proper time to consider those young Americans who fight in heat and slime in alien places like Viet Nam, in the kind of undeclared war of limited aim that is alien to our tradition.

They fight, as did their elder brothers in Korea—not for loot because there is none; not for glory, for there is little of that around; their homeland is not threatened, their fellow countrymen at home make no companion sacrifices and no crusader's zeal drives them on. The question remains: What makes them do it and do it so well, beyond the minimum requirements that the uniform ordains?

In answer it has been said that they are professional soldiers; but boys of nineteen and twenty are professional at nothing, certainly not at managing the meeting of life with death.

They fight, they endure, even though they may not understand the geopolitics of this distant war; even though thousands of their countrymen tell them every day, in protest and parade, that the war they fight is a senseless war. They keep on, as they did in Korea, when these circumstances were much the same.

The real answer must lie deep in the tissues of whatever is the substance that keeps America from becoming unstuck; it must have something to do with their parents and teachers and pastors, with their 4-H clubs and scout troops and neighborhood centers or gangs. It has to do with the sense of belonging to a team, with the dishonor of letting it down. But it also has to do with their implicit, unreasoned belief in their country and their natural belief in themselves as persons.

Whatever the full answer, it is a considerable thing that they are doing, when they stick at this kind of war, fighting without universal support and fighting for results obscured in the mist of the future.

Official weeks and days are impersonal symbols to take note of something intensely personal. But they provide an opportunity for the rest of us who are not covered with mud and weariness and nightly fear to pay a measure of respect.

importance were reviewed. With no further items of business, the meeting was then adjourned. The next regular meeting will be held December 6, 1965. All meetings are open to the public.

## ---Eisenhower

James, he was taken to nearby Ft. Gordon and put in a five-room hospital suite kept in emergency readiness during his visits here. His wife, Mamie, accompanied him.

He was placed under a oxygen tent, a usual precaution in such cases, and slept for several hours. He awoke in the late afternoon and said he had rested well and was hungry. He ate a light supper of soup and croutons, applesauce and gelatin.

Later, the former President talked with his son, John, on three occasions.

"I was much encouraged myself that he is quite alert and quite interested in everything going on and he looked pretty

good to me," John told a news conference Tuesday night. "He's in excellent spirits."

## ---70 Yanks

American and Australian artillery fire and U.S. Air Force and Navy air strikes ultimately saved the ambushed ground troops and make the difference between victory and defeat. In one area alone 60 Viet Cong were killed by artillery fire.

## Bible Thought

In thy presence is fullness of joy; at thy right hand there are pleasures for evermore. Psalm 16:11.

Joy is very hard to find these days and so, people are accepting all kinds of substitutes—tainted pleasures. Joy is an exotic. It is "out of this world." It is found only in the Lord.

## In Memory

In loving memory of Clyde Grimes, who passed away seven years ago today, Nov. 10, 1958. When the family gets together, There is one we fail to see. And it fills our hearts with sadness, Thinking of the used-to-be, For a dear one's face is missing, And his voice no more we'll hear. Things are not the same at home. Since our loved one is not here.

Sadly missed by Wife Claudia and the Family.

Sponsor Drive For Band Uniforms  
The Fillmore Band parents are currently sponsoring a drive to raise funds for band uniforms.

At a meeting held November 2 the organization decided to sponsor a smorgasbord. The date for the event is set for December 4.

The group also elected to have bake sales at all the home ball games.

Publicity chairman, Mrs. Robert Cash, asks that all parents work together in a drive for funds.

## Mary Ruth Jones Is Hostess To Club

Mary Ruth Jones was hostess to the Socialists Club of Fillmore on November 3. There were eight members and four children present.

After the main course of business we elected new officers for 1966. They are: President, Betty Arnold, Vice-President, Juanita Jones, Secretary, Mary Ruth Jones, Treasurer, Betty Frazier, Historian, Jennalee Jones. The Finance Achievement Committee was appointed. They are: Carolyn Bullerick, Jane Sibbit, and Jessie Tharp. We completed plans for a rummage sale to be held on November 27th at the Court House.

Our Christmas Supper for the husbands will be December 18th at 7:30 at the Colonial Room in Greencastle. The next meeting will be January 5, 1966 at the home of Jessie Tharp.

## Officers Elected By New Maysville Club

The New Maysville Service Club met Nov. 3, at the home of Mrs. Florence Lasley.

The meeting was opened with the thought of the month. For devotions, Mrs. Florence Jeffries read the 95th Psalm.

An election of officers for the coming year was held.

Those nominated and elected were:

President, Lillie Wilson.  
Vice-president, Marjorie Tippin.

Secretary, Lucile Wilson.  
Treasurer, Juanita Rayfield.

Secretary and Treasurer's reports were read and approved. A discussion and final plans were made for our annual family turkey supper, to be held December 1 at the home of Lillie Wilson.

Our sample Xmas cards and wrap were passed for viewing and orders taken for those.

Penny fund of 95c was collected.

After repeating the benediction in unison our meeting was turned to the entertainment of the afternoon.

Mrs. Mary McGuire, who was unable to be present, had contacted Mrs. Joe Sutherland who was present and showed slides, picturing the interesting places she had visited while on her tour of Europe. These were of Italy, France and England. It was a very interesting program which everyone enjoyed very much.

The hostess served refreshments, true reminders of our beautiful fall season. Delicious cider, doughnuts and corn candy.

Seven members and our guest Mrs. Sutherland were present for this meeting.

## In Memory

In loving memory of our father, Oscar H. Wells who passed away twenty-one years ago today, Nov. 10, 1944.

Beyond the sunset there's a land  
Where skies are always blue  
Where every day is bright and fair  
Where dreams will all come true

We have only your memory dear father  
To remember our whole life through  
But the memory will linger forever

As we treasure our image of you,  
Sadly missed by the Wells children.

## In Memory

In loving memory of G. A. Harmon who departed this life fifteen years ago today, Nov. 9, 1950.

Sunshine passed, shadows fall  
Love's remembrance outlasts all

Time speeds on 15 years have passed  
Since death its gloom its shadows cast.

And took from us a shining light.  
We miss that light and always will

His vacant place no one can fill.  
A loving husband so kind and true

No friend on earth like him we'd find  
For all of us he did his best  
May God grant him eternal rest.

Down here we mourn but not in vain  
For up in Heaven we'll meet again.

Sadly missed by wife and children.

## ---Power Failure

Throughout a long night—and a cold one in millions of homes when electric-operated heating systems failed—power company officials and Washington experts could offer only theories about the cause of the failure, then abandon them, one by one. But the White House discounted sabotage as a possibility.

The failure did demonstrate—to the shock of the East—how easily it could be plunged into crisis by a single unplanned accident.

By 5 a.m. EST the lights were coming on in Manhattan. But just under half of the city remained dark—and many of its residents remained stranded with temperatures in the low 30s.

It was a miserable night for New Yorkers. When the power failed at 5:28 p.m. EST, 800,000 subway riders were trapped in blackness. Hours later, the last had inched their way through tunnels, one by one, and into eerie streets lighted only by automobile headlights and the flashing red lights of patrol cars and ambulances.

In the Empire State Building and other skyscrapers, elevator riders waited for five hours or more for rescue. At last, workmen swinging sledge hammers smashed through the walls of elevator shafts and of the elevators and freed them.

Caught up in the suffering were millions of the people over an 80,000 square mile area, in all or part of New York state, Massachusetts, Connecticut, Vermont, Rhode Island, New Jersey, Pennsylvania and a large swath of Ontario province in Canada.

In Texas, President Johnson ordered a swift investigation to see that it never happens again.

In Massachusetts' Walpole State Prison, 300 convicts rioted for 4½ hours and were finally subdued by teargas.

Minor looting was reported in New York, Boston, Cambridge and Springfield, Mass., and Rochester, N.Y.

Local Women Attend State Conference

"Being a leader is no easy job in this world today," Dr. Leo Hauptman, Registrar of Ball State University, told more than 400 members of the Business and Professional Women's Clubs in the State at a Leadership Training Conference Saturday, Dr. Hauptman was the speaker at the banquet Saturday night in Cardinal Hall. Predicting more changes in the next 15 years than in all the years of the Renaissance, Dr. Hauptman urged the BPW directors, committee chairmen and officers to plan carefully as it will help them to make decisions: to be able to carry out

the plans as the future belongs to those who will be able to provide a "master's touch"; and to produce or carry out the plan.

"If you cared enough to come to this conference, you will go back with an excited enthusiasm. Your hands will be better, carefully directed by your head and motivated by a heart filled with love for your fellowmen. And it will be from 'serve to service' for all of you. There is something for all of us to do here. 'Be the best of what ever you are and do the best you can,' he said in closing.

Workshops for the various groups were held Sunday morning. The meeting closed with a luncheon. Members attending from Greencastle were Mrs. Mary Shaw, president of the local club and Mrs. Lillian Smith.

## Jaycee Wives Attend Meeting At Zionsville

Mrs. Don Cochran, President of the Greencastle Jaycee Wives, reports that she and Mrs. Don Barnes, Secretary, along with Mrs. John Newgent, Mrs. Richard Asbell, Mrs. Bill DeBore, Mrs. Jim Twigg and Mrs. Ron Sutherland attended an Exchange Forum sponsored by the Zionsville JCW organization November 4.

The Greencastle Chapter and eight other organizations neighboring Zionsville found most problems mutual regardless of a club's size.

Discussion points were: Membership, Communication with Jaycees, Involvement in Community Affairs, Participation in Projects, Fundraising and Interest in Convention.

Other clubs were much impressed when Mrs. Cochran told of the Wives Appreciation Night held by the Greencastle Jaycees, at which the men prepared the dinner and served their wives.

With November being the beginning of their calendar year, the new leadership take their position for a new year. Jack McCullough, President; Barbara Fry, Vice President; Nancy Killion, Secretary and Treasurer; Mary Ruth Phipps, Reporter; Becky Lambert, Devotional Leader; Ralph Fry, Recreation and Song Leader. These are the newly installed officers.

This installation banquet and program was held at the Greencastle Lions Building, Saturday night and was conducted by State President Mike Jones. Also installed were the Hendricks County Rural Youth officers and the district officers of the organization. These two organizations, Putnam County Young Adults and Hendricks County Rural Youth are very similar in their make-up. Both groups have membership consisting of single young adults between the ages of 18-28. The program is generally directed toward education, community service and recreation. Regular monthly meetings are held with monthly outings such as ice cream suppers, hayrides, and similar parties.

Being affiliated with the state organization of Rural Youth allows for participation in many sports, civic, and educational activities on a district and state level.

Local membership is open to interested persons. The next meeting will be held Wednesday, November 10th, 8:00 p.m. in the Community Building on the Fairgrounds.

District officers for 1966 are President, Jean Wolfe, Hendricks County; Ralph Fry, Vice President, Putnam County; and Secretary and Treasurer, Nancy Killion, Putnam County. Mike Jones, State Rural Youth President (far left) was the installing officer.

## Face Identical Heart Surgery

CHICAGO UPI — Wisconsin businessman and his wife today undergo identical open heart surgery in Chicago's Edgewater Hospital.

Doctors planned to toss a coin to see if J. Alvin Dru'yor of Prairie Du Chien or his wife would be first.

They will both undergo an

operation "cardioplexy" lasting about 45 minutes to correct a slowing of the blood supply to the heart.

Dru'yor said he had known of his condition for seven or eight years but the discovery that his wife had the same affliction came only recently.

"My wife came along with me to have a physical and it was discovered that she has a worse heart condition than I have," he said.

## Propose Seating Of Red China

UNITED NATIONS UPI — Peking's decision was awaited today on the wording of a resolution to seat Communist China in the United Nations.

A source close to the 11 prospective sponsors said they hoped to have the draft resolution ready for presentation to the General Assembly today.

The sponsors, headed by Cambodia and Albania, have been arguing for two weeks or more about the wording of the proposal. They were reported to have sought Peking's opinion.

The sponsors wanted a proposition that would get the maximum number of votes.

A resolution to seat Red China and expel Nationalist China was defeated by a 57-41 vote in 1963. The sponsors feared the same kind of resolution would again be rejected.

Several new drafts were considered that would imply, but not spell out, the requirement for expulsion of the Nationalist government on Taiwan.

## Role Of Laity Is Bolstered

VATICAN CITY UPI — The Ecumenical Council today gave final approval to a decree bolstering the role of the laity in

the Catholic Church. The vote was 2,201 to 2.

The decree gives the lay faithful a new role of responsibility in church affairs. It is titled "On the Apostolate of the Laity."

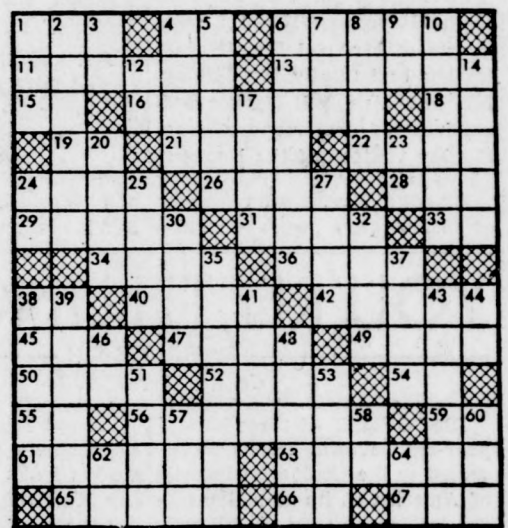

The decree is the seventh completed by the Council during the current session.

## State Aid For Schools Favored

INDIANAPOLIS UPI — The Indiana Farm Bureau completed its annual convention at Indianapolis Tuesday with passage of 75 resolutions, including one favoring more state aid for public school operations.

Bureau members also re-elected George Doup, of Columbus, to his fifth two-year term as president.

In its resolution on taxes for school support, the bureau recommended that local property taxes not be permitted to pay more than 25 per cent of the total cost of school operations, and that the rest of the costs come from other sources such as state aid.

LUSAKA, Zambia UPI — "Take one or more feet from an elephant, soak in warm water, skin and bone and then parboil for 15 minutes" is the recipe of the day in Zambia.

The helpful cooking hints are put out by the government as part of its game-cropping campaign to cut down on the pachyderm population.

## "Power Play" Charge Made

WASHINGTON UPI — The aluminum industry today was girding itself for the squeeze of what it termed a government "power play" to destroy the effect of its recent price increases.

The latest move in an intensified government campaign to put pressure on the industry came Tuesday, when the Office of Emergency Planning (OEP) made a surprise announcement it was authorizing the sale of a total of 300,000 tons of aluminum from government stockpiles.

The figure was a 100,000-ton increase over the figure Defense Secretary Robert S. McNamara announced last Saturday.

"The power play has started," said an industry source. Another industry man said the government's plan to dump low price aluminum on the market was "more and earlier" than expected.

The OEP said in its announcement that 100,000 tons of the metal would be sold immediately, with the rest to be opened for bids at a later date. OEP Director Buford Ellington said plans were for 200,000 tons to go before the end of next year, with additional sales "depending on the need and the market."

There was no word from the government on the reasons behind the sudden increase in its authorization for stockpile sales. But according to industry sources, the boost would give the government more muscle if it wants to erase the effects of the price increases.

The government has objected to the announced increases of one-half cent a pound for basic aluminum by the four largest manufacturers on grounds they were unjustified and inflationary.

**TIGERS KILL 32**

NEW DEHLI UPI—Reports reaching here Tuesday said 35 persons have been killed near Bareilly by three man-eating tigers. The tigers, which have attacked persons riding bicycles and rickshaws, have halted practically all work in sugar cane fields in the area because workers are afraid to enter the fields.

## TV in review

HOLLYWOOD UPI — The occasional NBC-TV specials of Danny Thomas are sometimes excellent, sometimes good and sometimes only fair, but they all do something the viewer can only admire: They genuinely try to be special.

Monday night's one-hour Thomas effort, for example, was not in the same league with his "Wonderful World of Burlesque" special — to which there will be an encore Dec. 8 with Lucille Ball, Jerry Lewis and Shirley Jones — yet the attempted showmanship held one's interest.

There was a load of talent on hand Monday night — the indomitable Martha Raye, Bill Cosby, Tim Conway, the Three Stooges, the band of the late Spike Jones led by his 16-year-old son Spike Jr. — and of course Thomas himself. The general fault, despite numerous pleasant moments, seemed to come from a feeling of raggedness in direction — not terrible, but simply not quite as precise as the direction we have happily come to expect from these Thomas hours.

Likewise, one felt the production got a little out of hand, a little too enthusiastic and frantic, in its attempt to fulfill the theme: What makes people laugh? No one, of course, takes too many of these variety show themes too seriously — except for something like the rare stroke of the Thomas burlesque outing — and Monday night's effort merely used the overall approach as a prop, or crutch.

Thomas is such a great storyteller and artist at his trade of comedy that it was disappointing to find him using himself primarily as a host, straight man and singer. His stories can do wonders for a show. Likewise, Cosby, costar of the "I Spy" series, was disappointing in another of his by-now-familiar comedy routines based on his recollections of childhood schooling. One now expects more from him.

The Three Stooges were pretty ordinary, and the Spike

Jones aggregation, sad to say, seemed well below the standards of anti-musicianship they once were famous for. Thus the burden of holding up the show fell on Conway, of "McHale's Navy," and on Miss Raye and, happy to say, they were just fine.

### No Viet Duty For Soldiers, 17

WASHINGTON UPI — Defense Secretary Robert S. McNamara Tuesday ordered all 17-year-old servicemen exempted from service in Viet Nam.

Approximately 1,500 soldiers, sailors and marines of that age are now on South Viet Nam duty. The directive does not apply to 17-year-olds aboard 7th fleet vessels off Viet Nam.

McNamara said the new policy is effective immediately. He directed the armed services to "cancel or modify orders for any 17-year-olds now destined for Viet Nam."

The minimum age for servicemen is 17. The services were given until next Feb. 1 to transfer from Viet Nam any men who will still be 17 years old after that date.

Don't Get Hooked  
On Hold-Up Plays

By Alfred Sheinwold  
Some bridge players can go along for years without causing any gossip, but sooner or later they get hooked on hold-ups. Then you will hear the word go round: "Smith is a hold-up addict. He never takes an ace or a king at the first trick."

West led the six of hearts, and South played low from the dummy. He was hooked on hold-ups. East won with the jack of hearts and made a brilliant switch to the five of clubs. Declarer won in dummy and returned a diamond for a finesse with the jack. West took the king of diamonds and returned a heart to dummy's king. South cashed the ace of diamonds, led the jack of spades to dummy's king and gave up a diamond.

East led another club, and West's two club tricks defeated the contract. The hold-up play had claimed another victim.

## No Trials For Many Violators

INDIANAPOLIS UPI — The Indiana Traffic Safety Foundation, Inc., reports that records show more than 13,000 traffic violators arrested in the state last year never have come to trial.

"It's simply a case of responsible officials and political party leaders being unwilling to act," said Albert E. Huber, executive director of the foundation.

Huber said public respect for the law is bound to suffer when traffic fines can be paid by mail, when persons of influence are able to delay trials, and when serious violators pay only small fines.

He expressed concern over his belief that too many judges are willing to grant continuances repeatedly and when a defendant is convicted to suspend fines.

he wins the first trick in dummy with the king of hearts. (Otherwise, you may be sure, you would never hear of this hand.)

Declarer loses a diamond to the king, and West returns a heart. South takes dummy's ace, again refusing to hold up.

South cashes the ace of diamonds, gets to dummy with a spade and gives up a diamond trick. East cannot return a heart, so South takes ten tricks.

If East could return a heart, the suit would then break 4-3, and the defenders would get two hearts and two diamonds. West could do no better by switching to a club upon getting his diamond trick, for then the defenders would get two clubs and two diamonds.

The important thing is not to lose a heart trick in addition to two diamonds and two clubs. A fine player must be able to take holdups or leave them alone.

## Extra Room Tax In Marion Co.

INDIANAPOLIS UPI — Visitors to the Hoosier capital, beginning Jan. 1, will find an extra 3 per cent room tax on their hotel or motel bill — but they can cheer themselves with the thought they are helping to build one of the six biggest downtown auditoriums in the nation.

Plans for the auditorium, which was made possible by a 1965 law imposing a 3 per cent room tax in Marion County only and authorizing a bond issue, were outlined Tuesday by Indianapolis convention bureau director Joseph Cripe to the Woman's Press Club of Indiana. Cripe said the Hoosier capital has been talking about a downtown auditorium since 1912 and "barring unforeseen things" should finally be able to achieve the project with the new law.

He said the building planned for a probable site north of the Indiana State Office Building will make it possible for Indianapolis to host "the two biggest conventions in the nation." He said he was referring to the Shrine convention, which is booked for Indianapolis in 1971 with a probable attendance of 25,000, and the national American Legion convention.

## Corn Harvest Nears Completion

LAFAYETTE UPI — Harvesting of Indiana's corn crop moved closer to completion last week as good drying conditions prevailed.

The harvest, previously a week behind average, improved to only four days behind average by last weekend. Approximately 45 per cent of the crop had been harvested compared with 50 per cent average.

"Unusually rapid progress was made during the week," said Robert E. Straszheim, agricultural statistician at Purdue in his weekly crop report. "The week provided good drying conditions and moisture percentage declined rapidly."

Straszheim said light showers late in the week and during the weekend were expected to "cause a brief delay in harvesting this week."

"However, shucks and stalks were becoming too dry for best harvesting conditions in many localities and the additional precipitation was considered beneficial."

The soybean harvest also progressed rapidly with 90 per cent of the crop combined by the weekend, compared with 95 per cent average and nearly 100 per cent a year ago.

"The seeding of winter wheat is nearing completion," the report said. "About 70 per cent is up to stands which compares with the usual 75 per cent and 65 per cent at this time last year."

Topsoil and subsoil moisture were rated as adequate and pasture condition continued "fair to good," the report added.

## Fire Destroys Grain Elevator

VINCENNES UPI — Fire caused an estimated \$350,000 worth of damage Tuesday night at the Stangle Farms Grain Elevator seven miles south of here.

Authorities said the firm's main elevator, loaded with 90,000 bushels of corn, was destroyed in the flames, which were discovered by one of the owners, Frank Stangle.

He and Art Stangle own the elevator. They said the corn was worth about \$100,000 and the elevator and machinery in it were worth around \$250,000.

Firemen from Vincennes, Vincennes Twp., and St. Francisville, Ill., were called to fight the blaze, but were hampered by a lack of sufficient water. Officials said, however, the building was too far gone to save when the first company arrived at the scene.

They said the firefighters worked mainly at preventing the flames from spreading to nearby storage bins and garage area.

Frank Stangle said the fire may have started when a slipping conveyor belt threw a spark into the corn.

### Even Chance

SNOOK, Tex. UPI — The Snook Jaybirds smashed Rock Island last night in a "gentlemanly" fashion. By the fourth quarter, Rock Island had fouled out five of its seven players, leaving only two men on the court.

Snook, being the host team, retired five of its own men, leaving two men from each team to play the final 15 minutes.

## New Department Is In Operation

WASHINGTON UPI — The brand new Department of Housing and Urban Development was open for business Tuesday — with President Johnson still searching for someone to head it.

Robert C. Weaver, head of the Housing and Home Finance Agency (HHFA), said bluntly Monday that he wants the job.

But White House Press Secretary Bill D. Moyers said Johnson was going to hold off until he can find the "most qualified man or woman," probably not before the first of the year.

The new cabinet department, which came into being formally at 12:01 a. m. EST Tuesday, replaces Weaver's agency. In addition to taking over the federal housing programs now administered by the HHFA, the new department also will handle problems of the nation's 140 million city dwellers.

Weaver, 57 years old and one of the highest Negro officials in the government, has been mentioned as one of several candidates for the job. He was asked at a news conference Monday if he wanted the post and replied: "yes."

The HHFA administrator said he would like to be secretary of the new department because housing and urban development "is a field in which I have spent most of my adult career."

Johnson was said to be considering at least eight candidates for the secretaryship.

## Scheduled Rally Is Postponed

OTWELL UPI — Danny Decker, 24, Otwell, who claims to be the new Indiana grand dragon of the Ku Klux Klan, said he has cancelled plans for a KKK rally Saturday night on the Pike County Courthouse lawn at Petersburg.

Decker said the rally was postponed at the suggestion of Robert Shelton, grand wizard of the Klan, whom he said he contacted by telephone in Washington. He said Shelton couldn't accept an invitation to appear at the rally because of a previous engagement and recommended postponement of the plans.

Pike County authorities said after Decker's announcement of the rally that they had no present plans to prohibit the rally.

Decker revealed he was "invested" as grand dragon at a Klan meeting on a farm near Otwell Sunday night. He said about 65 persons attended, including "eight or nine" hooded members. Later, he told authorities there were only 8 or 9 persons at the meeting.

## FENCE LUMBER

NEW YORK UPI—Any fencing lumber that comes in direct contact with the ground or is subjected to constant, severe weather exposure should be pressure treated.

Chemical preservatives can be odorless. They provide immunity to insect attack and to severe exposure.

## OIL SEARCH

HOUSTON UPI—Shell Oil Co. estimates it has spent \$60 million in 15 years to find oil in the Gulf of Mexico.

In the last four years, it has put down 40 wells. Twenty-four were "dry," but 16 were strikes.

## Stage Anti-Red Demonstration

JAKARTA UPI — An army of 10,000 Indonesian women and girls held an anti-Communist demonstration in Jakarta Monday.

Marching behind a drum corps and baton — twirling majorettes, the housewives, coeds and actresses paraded from the headquarters of army commander Maj. Gen. Sukarto to the National Front headquarters.

They shouted support for President Sukarno and the armed forces against the Indonesian Communist Party PKI. The women denounced the women's auxiliary of the PKI and accused Communists of

poisoning the minds of Indonesian youth.

In a related development, leaders of the Indonesian parliament submitted a list of suspected Communist members in the ranks of the legislature for review by Sukarno.

Sukarno made a series of speeches during the weekend reasserting the leftist character of the Indonesia government.

Only army, public and press response in the weeks ahead will tell whether Sukarno still controls the country.

So far, there is no sign that either the army or the Communists are willing to give up their campaigns of violence and terror against one another.

## THROUGH THE NATIONAL WINDOW

By Lyle Wilson

After the leaders of organized labor, the Republican Party was the big loser in the session of Congress just adjourned.

Big labor was skunked. Little GOP almost was skunked but not quite. Big labor put into the election of a Democratic President and Democratic Congress hundreds of thousands of dollars and of man hours. So big

labor figured it held the mortgage on the White House and on the U.S. Capitol.

The mortgage was to be paid off and the papers publicly burned when LBJ and his fellow Democrats made good on the loud campaign promises to repeal the right-to-work section of the Taft-Hartley Act. That was section 14-B. Labor also wanted a hike in the minimum wage, liberalized jobless benefits, a 35-hour and double pay for overtime. But 14-B was what labor wanted most.

The 14-B repealer squeezed through the House but Senate Republican leader Everett McKinley Dirksen stopped it cold in the Senate. Dirksen organiz-

ed with southern conservatives a filibuster that the administration could not break. LBJ did not try very hard to break it.

LBJ is a great one for polls. He carries around a pocketful and usually has them memorized to boot. It is notable that during the months prior to congressional consideration of the 14-B repealer, the polls showed there was a majority opinion in the United States against repeal.

So labor lost its grand prize and it didn't get any of the lesser prizes either. The labor leaders are reported to be unhappy but far from a mood in which they would switch from their Democratic allegiance to

the Republicans. They might sit on their hands next time, but even that is not likely. They are reduced to hoping for better luck in the next session which begins in just two months.

The Senate filibuster and prevention of the 14-B repeal were tops in the Republican record of the first session of the 89th Congress. In the House, Republican pressure compelled the administration to permit governors to veto some phases of the poverty program. The veto could be overridden by the poverty administrators in Washington but the fact of any local authority at all was a triumph. A Republican triumph, too.

The Daily Banner, Greencastle, Indiana  
Wednesday, November 10, 1965

LBJ's great society plan to take your tax money to pay my rent, or vice versa, was checked in Congress. It was not rejected but the program was postponed for lack of immediate funds. The great society plan for a federal teachers' corps also was knocked over. All of the foregoing were Republican triumphs. But in all instances the Republicans prevailed only because they were allied with southern Democratic conservatives. The lesson is plain enough!

The Republicans and the southern conservatives need

each other. They should get together, and soon, in alliance against the Democrats and left wingers of the North and West. The dawning truth is that the issue of racial segregation is no longer basic in U.S. politics. Much or most of the heat remains. But there is no more chance of returning the United States to the discrimination road now abandoned than there would be a chance to restore slavery. As a major political issue racial discrimination is dead, dead, dead except on the tongues of demagogues both for and against discrimination.

## Lost City, Paizacola, Found In Sands of Florida Island

PENSACOLA, Fla. UPI — the history of the gulf coast — Santa Rosa Island stretches nearly 50 miles along the coast of northwest Florida, its gleaming white sands still largely unclaimed from nature.

Once a haven for pirates and marauding Indians, the island has played a significant role in

the history of the gulf coast — from the time of the first white settlement in North America. The sand and dunes and brush have kept many secrets. Perhaps the most important was the Spanish colony of Janzicola, or Punta de Siguenzay.

It was a lost city until a year ago pinpointed the site of the settlement. Excavation uncovered parts of the colony and evaluation of findings is still under way.

Paizacola was founded in November, 1722, by Don Alejandro Wauchope. Thirty years later a severe hurricane raked the island and nearly destroyed the settlement. A few survivors remained but they, too, pulled out in 1756.

The city's 50 buildings slowly sank beneath the island's sugarwhite sand.

The only record of its physical appearance was a sketch made by a Spanish trader in

1743 and printed 20 years later in a London magazine. At the time, the city had several hundred inhabitants, about 50 buildings, including a fort, a church and a large home for the government. They were all made of cedar or cypress.

Norman Simmons, 25, assistant curator of the Pensacola Historical Museum, who explores the island during his spare time, found the remains of Paizacola.

This brought a team of archeologists and students to the island last summer headed by Dr. Hale Smith of the University of Florida. Part of the town was excavated. Hundreds

of relics were found, including coins, plates, nails and other remnants of Spanish culture. The timbers of the buildings had almost disappeared.

The curator of the Florida State Museum in Gainesville, Dr. William H. Sears, said the city was one of the most important archeological discoveries in the history of the Southeast.

Dr. Robert Gold, professor of history at the University of Southern Florida, said the town was one of the only true, pure colonial Spanish cities in Florida.

Paizacola was composed of Spaniards from the original

Pensacola, the first white settlement in North America, founded in 1559. One of the reasons for its location was the protection the island offered from unfriendly Indians.

The colony apparently thrived. Indians helped by providing food for the villagers and making pottery. Trade developed with the French at Mobile.

Then the hurricane struck. Many died. Some of the survivors tried to rebuild but four years of hardship led the remaining Spaniards to abandon the island.

Today, the visitor would see nothing to indicate such a set-

tlement once flourished on the island.

A closer look at the sand, however, would show pieces of Spanish glass, colorful bits of broken plates, corroded nails and tiles.

Simons says much more excavation is needed to recover what remains hidden in the sand. He also would like to restore the city and see a museum established near the site, stocked with relics of the island's history.

### Russian Office

MOSCOW UPI — Singapore has agreed to allow Russia to

open a trade office and an office for the official Soviet news agency Tass, it was reported Monday.

Tass said an agreement "in principle" on the two offices in Singapore was reached in talks between Soviet officials and Vice Premier Ton Chin Chye of Singapore. Chye left Moscow for home Monday.

Pre-fab houses are nothing new. In 1849, 5,000 pre-fab dwellings were shipped around Cape Horn for the Forty-Niners in the California gold fields.

# Foreign News Commentary

**By Phil Newsom**  
By United Press International

No one, least of all President Charles DeGaulle himself, doubts that he will be re-elected president of France Dec. 5. Despite weeks of silence and speculation, few Frenchmen really believed that De Gaulle, who feels his own destiny inextricably woven with that of France, would be willing to

Whatever the disarray of the frustrations DeGaulle may have spread among his allies, no one can deny his services to France nor that France, above all else, is his first loyalty.

Yet even among the frenchmen who will vote for him there must be annoyance and regret that they must do so on his own declared grounds that to do otherwise must be to return France to political squabbling, confusion and chaos "even more disastrous than what France knew in former times."

The closing months of World War II and the years since then have other examples of leaders who came to believe themselves

indispensable to the future of their country.

U. S. citizens have the right to wonder whether the mistakes of Yalta might not have been avoided had the late President Franklin D. Roosevelt's health not already been broken by four unprecedented successive terms marked by the strains of a great depression and a great war.

The West German Republic gains nothing in world stature from the sniping of former Chancellor Konrad Adenauer, another who will not quit, against Ludwig Erhard, his successor.

If DeGaulle is right that the choice is between him and disaster for France, then he also negates the whole scheme of the French Fifth Republic of which he himself is the founder.

As the French Fourth Republic floundered on the verge of civil war in the late spring of 1958, De Gaulle came out of his rural retirement at Colombey-Les-Deux-Eglises only on the promise that he would have "full power" to reform the constitution and submit his reforms to a popular referendum.

And as, too late, the French parliament fought a losing rear guard action, the popular referendum has been his weapon ever since.

Through it he gained approval of a new constitution placing in the hands of the president.

And through it, as he pursued an independent nuclear policy, virtually withdrawn from NATO and barred Britain from the European Common Market, he reduced strictly to a secondary role the powers of the French premier and the assembly.

Yet, now says De Gaulle, these are not enough. It still is a choice between De Gaulle and disaster.

The Daily Banner, Greencastle, Indiana  
Wednesday, November 10, 1965

One wonders where in De Gaulle's mind immortality begins.

**Killed In Viet**  
COLUMBIA CITY UPI—Pvt. 1st Class James F. Parrett, 23, Columbia City, was killed by ground fire in hand to hand combat in Viet Nam Nov. 3, relatives here were notified.

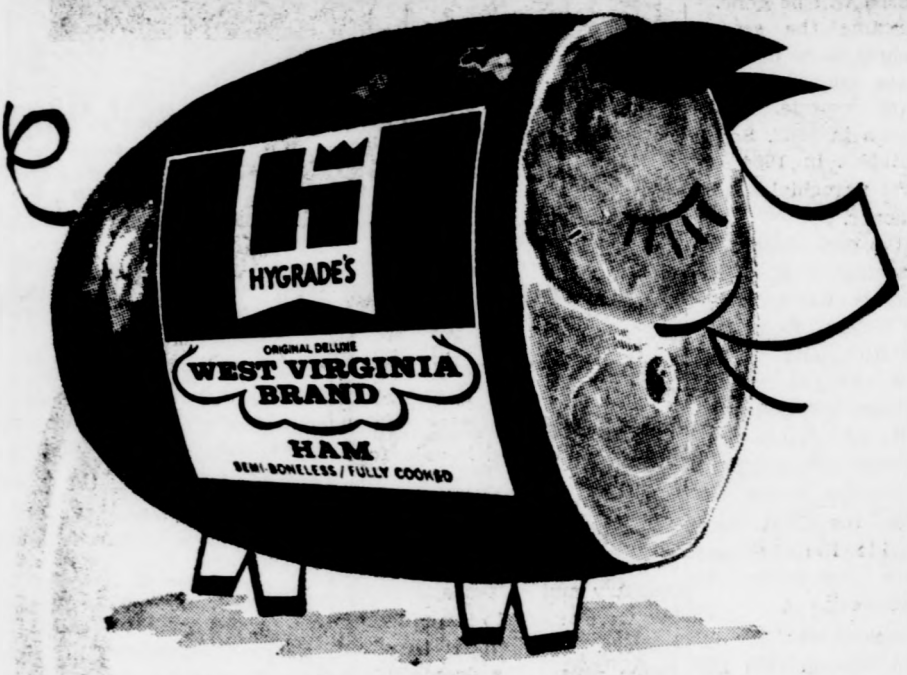

Parrett was the son of James F. Parrett, who drowned in Mud Lake in 1951. The youth's father was decorated for bravery with the Air Force in World War II.

**Pranksters' Work**  
INDIANAPOLIS UPI—Indianapolis police Monday believed a hate message discovered written on a wall of the Indiana War Memorial may have been the work of a prankster.

Police said passers by discovered the message scrawled on the wall and signed "Rayman."

The writing said: "The Jews started the Catholic Church to seduce the people mentally so that they could rule them."

**PHEASANTS...** They're most popular of Upland Game Birds, chicken-like, with meat light and tender, and brilliant-colored plumage.

MALE PHEASANTS WEIGH 3 LBS. AND HENS 2 LBS. THEY'RE FAST FLIERS, HARD TO SHOOT AT.

PHEASANTS ARE SEED EATERS, WITH THE YOUNG CHICKS LIVING ON GRASSHOPPERS, CRICKETS AND OTHER INSECTS. THEY SHIFT TO A GRAIN DIET IN SUMMER AND CORN IS THEIR STAPLE FOOD IN WINTER. PHEASANTS MUST EAT FREQUENTLY BECAUSE THEY BURN UP ENERGY FAST. PHEASANTS RETAIN GRIT IN THEIR GIZZARDS TO GRIND THE SEEDS THEY EAT. IN WINTER THEY'LL BE FOUND ALONG SNOW-POWDERED ROADS, LOOKING FOR GRIT OR WASTE GRAIN. MANY ARE KILLED BY SPEEDING AUTOS.

# Undefeated Hammond-Morton Claims Mythical Football Title

INDIANAPOLIS UPI—Hammond Morton, independent Roosevelt and Hammond. He for the last time, today rode a perfect season to the mythical Indiana high school football championship.

For the second week in a row Maurey Zlotnik's Governors made a clean sweep of the UPI coaches' team ratings and their second unbeaten-united season in five years also garnered them state-wide acclaim in the final roll call.

"This has been a real mature ballclub," said Zlotnik, completing his 26th year at Morton, which was once a junior high school. "They never got rattled, they were pretty methodical about winning."

Morton won 5 of its 10 games by shutouts, the most lopsided the 61-0 pasting it handed Hammond Clark early in the season.

The toughest games, said

Zlotnik, were East Chicago Roosevelt and Hammond. He did not think that South Bend Riley, runnerup in the ratings, was quite as tough "although they could have beaten us."

Morton was voted tops in the state after its 13-7 triumph over Riley Oct. 23.

"What helped us tremendously was the fact we went practically the whole season without major injuries," said Zlotnik.

He could ill afford key injuries since his No. 1 unit went virtually all the way on both offense and defense. He made only two substitutions on defense.

The unbeaten Morton club of 1961, led by All-State quarterback Carl Creekmore, now a junior at Missouri, was more explosive than his latest club, Zlotnik noted, and also much deeper bench-wise.

"But our line this year was

more aggressive," he said. "It made a lot of touchdowns by picking off passes and on blocked punts."

Zlotnik loses 7 starters on offense and 5 on defense through graduation, including virtually his entire backfield. Thus, 1966 should be a rebuilding year when the Governors join the tough Northwest Conference.

But back will be such strong linemen as end Bill Harvey, guard Joe Jarosz, and Steve Vadas, considered by his coach as one of the best centers in the state.

In the backfield, Ron Volbrecht will be back, too, but quarterback Darrell Chaney, Rich Volbrecht, Ron's brother, and Bob Chorbha will be gone.

Morton became the second Hammond school to be declared mythical state champ by the UPI panel of experts. Hammond High won in 1962. South Bend St. Joseph's in 1964 became the first parochial school to gain the honor.

Others in the past were Central and Washington of South Bend, Evansville Reitz, Whiting, East Chicago Roosevelt, Elkhart, and Richmond.

Only minor changes marked the final ratings, but undefeated Terre Haute Wiley and Evansville Memorial's Southern Conference champs joined the "Big 10" for the first time while Evansville Reitz slipped from the elite after its loss to Memorial last week.

The final breakdown:

1. Hammond Morton (10)	100
2. South Bend Riley	82
3. Indianapolis Tech	64
4. East Chicago Roosevelt	45
5. Hammond Tech	41
6. Fort Wayne South	30
7. New Albany	24
8. Gary Wallace	23
9. Terre Haute Wiley	22
10. Evansville Harrison & Evansville Memorial	21
12. Kokomo 17; 13. South Bend St. Joseph's and South Bend Washington 10; 15. LaPorte and Gary Mann 9; 17. Evansville North 7; 18. Indianapolis Manual and Evansville Reitz 4; 20. Richmond 3; 21. South Bend Adams.	

## PGA Championship To be at San Antonio

WEST PALM BEACH, Fla. UPI—John D. MacArthur, who donated the land for the PGA national headquarters, announced Tuesday night the 1968 PGA championship would be played at San Antonio, Tex.

PGA spokesman John Hubbard said, however, that "no official announcement of the tourney site had been made."

He would neither confirm or deny MacArthur's report.

MacArthur, the millionaire developer of Palm Beach Gardens, also announced the 1969 PGA tourney would be played in Florida.

**ITEMS OF SPORTS INFO** picked up here and there and strung along the typewriter... The Big Ten will crack its conference attendance mark this year... In the first 16 games in the loop the average was 63,461... The record is 60,024, set in 1949... They say the New York Knicks gave up \$50,000 in addition to three players to get Walt Bellamy from the Bulls... Billy Casper has a chance to win \$100,000 or more on the golf swing this year and if he does he becomes only the fourth to do it... The others are Jack Nicklaus, Arnie Palmer and Tony Lema... Fathers Image, the two-year-old colt owned by John Olin, may be the favorite in the Garden State November 20... He's a son of Swaps... Elgin Baylor of the Los Angeles Lakers has passed the 15,000 mark in point making, the seventh player in the NBA's 20-year history to reach that milestone... After opponents in their last two games had gained 815 yards passing against Cincinnati U. one wag quipped that "maybe we ought to try parachutes against our next foe"... Whatdoyabet a back wins the Heisman Trophy again this year?... In the first 30 selections a back has won 28 times... How about that!... Toledo U. hasn't given up a touchdown by passing this year in seven games and leads the country in forward pass defense... When Penn State and Kent State met on the grid last weekend, it was either the first or second meeting... Kent State publications say their team lost to Penn State, 14 to 0, in 1922... Penn State records don't show it.

**BILLY STEVENS**, the Texas Western quarterback who is second in the country in total offense and fifth in passing, is only a sophomore... Of all things... When Michigan State and Indiana meet at Spartan Stadium Saturday, November 13, they will be battling for the Old Brass Spittoon, a trophy now held by Indiana... Eight of the 11 teams in the Southeastern Conference were still in the race for the title as the last month of football began... Only Vandy, Ole Miss and Tulane were out of it... Jimmy Brown of the Browns already has totaled more rushing yardage than the whole Green Bay Packer team... Bob Swaffar, the Oklahoma State eager who lost that arm in a freak accident a year ago, is helping coach the frosh cage team... Cliff Keen is beginning his 41st season as University of Michigan wrestling coach... When the California Angels open their 1966 season at Anaheim they will be playing in their third "home" park in six years... Traveling uniforms of the Philadelphia 76ers are the most dazzling in the NBA... They're bright red at top, with a bright white stripe in center and blue pants... ## SHARING THE WEALTH - - By Alan Maver

## Named Coach of the Week

AIR FORCE ACADEMY, Colo. UPI — At the start of the season, Ben Martin couldn't even be sure he'd have a football team.

A cheating scandal, involving more than 100 cadets, had rocked the Air Force Academy last January and of those involved, 29 were said to be football players. It seemed the Air Force squad was doomed to a few more years of floundering just as it was lifting itself off the ground.

Martin, armed with just nine letters when spring practice began, ignored the caustic comments of his detractors and stated, "I have a job to do. It will take time and work. But the building materials still are here. I believe in the young men we have. All they need is the opportunity and that they will get."

The hard work and faith paid off in what Martin called the "greatest" victory of his eight-year career at the academy when the Falcons stunned Army 14-3 last Saturday. For his efforts, Martin was selected today as the United Press International Coach of the Week.

It was the first time ever that the Air Force had whipped a rival service academy, and Martin termed the victory the greatest because "this was the most unlikely team to do it at the beginning of the season."

"From the standpoint of the academy," Martin continued, "the win over Army is the biggest in our brief history."

"This win means more from a long range standpoint. In fact, the object of the athletic program is to beat the other academies. You make a tradition a lot faster when you beat Army."

PALM SPRINGS, Calif. UPI — Baseball's 20 major league general managers scattered today, after firmly agreeing to seek a better organization and firmer financial base for the minor leagues.

The executives concluded their annual meeting here Tuesday, one day sooner than they had anticipated.

"It was a very interesting session," Ed Short of the Chicago White Sox said. Acting as spokesman for the group, the Chicago general manager repeated that the goal of the meetings was to come up with constructive ideas to present to the owners at their annual meeting next month.

## Man Suffocates In His Truck

EVANSVILLE UPI — Wallace Lemley, 36, Evansville, was found suffocated Tuesday in the refrigerator truck he drove.

Authorities said the man had been missing from his home since Friday night and apparently had become locked in the vehicle. They said the truck was parked at the rear of a produce company and they found a candle and some food in the truck.

Police said Lemley's wife told them he disappeared Friday night after walking out of their home during a family argument.

## Fillmore News

By Mrs. Charles Smith, Correspondent

Bring your gifts for Mental patients to Pruitts Hardware anytime in November, before 27th. If it is more convenient, just label and put in the box and a committee will gift wrap them. Ribbon, paper etc. has been donated for this purpose.

The Stitch & Chatter Anniversary meeting will be Nov. 17, 12 o'clock.

Callers on Mr. and Mrs. Lee Wells last week were Mr. and Mrs. Jesse Evans, Mr. and Mrs. Glenn Hampton of Stilesville, Mrs. Edith McKamey, Mrs. Lena Bryan and Mrs. Jess Seckman.

The Social Circle met Wednesday evening with Mrs. Kenneth Robinson, with seventeen members present. A very profitable auction was held. The hostess served delicious refreshments. Mrs. Esther Sibbett will be hostess for the Christmas dinner meeting.

In the future the Girl Scouts will meet on Monday afternoons, instead of Thursday as previously. Please notice meeting day.

Seventeen members and one guest attended the Beechwood Pleasant Circle Wednesday at the Methodist Recreation Building. Roll call was "last letter" Thanksgiving menu, which was very amusing and interesting. Mrs. Ruth Sutherland read "Grandmothers Garden" and "Ain't God Good to Indiana?" She also gave contests which was won by Mrs. Mabel Knoll and Mrs. Jessie Arnold. The hostess, Mrs. Ruth Ragan, assisted by Miss Kate Oliver served tasty refreshments. The Christmas meeting will be with Mrs. Mary Lou Dudley, with a 10c gift exchange.

Mrs. Mabel Knoll visited Mrs. Mabel Long of Reelsville on Tuesday, Oct. 29th and Mrs.
